** Labor & Material Warranties available to Gaco Western Qualified Applicators. Coating system must meet Gaco Western specifications.

† When applying S2100 over asphaltic and bitumen-containing substrates, the use of GacoFlex A4207 BleedTrap Sealer for Asphalt Roofing followed by a thin primer coat of GacoFlex E5320 2-Part Epoxy Primer/Filler is required for the GacoFlex S2100 5-Year Reflectivity Warranty.

‡ Application rate is job specific. Additional material may be required to achieve 22 dry mils.
