**GacoPedestrianDeck** systems are seamless membranes that incorporate organic granules for added slip resistance. The materials expand and contract with normal temperature shifts to provide long-lasting leakage protection. The fully integrated GacoFlex coatings are specially formulated to bond together and avoid shrinking, cracking, chipping, peeling, lifting or buckling when the temperature changes – creating a deck surface which will retain its strength and beauty season after season.

## The System That Lasts

### Penetrating GacoFlex Primer/Sealer System – Adheres Flawlessly

Each formula is designed to provide an unbreakable bond to the substrate.

#### The GacoPedestrianDeck System

*GacoFlex UB64*

Stays strong under tension, resists chemical decomposition in the presence of water and is puncture resistant.

*GacoFlex U66*

With wear-course granules, adds skid resistance and tough, complete protection against fading.

### GacoShell – Stays Intact Where Other Textures Fail

The unique shape and physical properties of these walnut shell granules cause them to wear evenly with the coating and remain embedded under pressure, thus keeping your system watertight long after other aggregates have “kicked out” of other decking membranes.

# GacoPedestrianDeck

True Waterproof Protection in Every Climate

*Add valuable square footage of usable space to your home or building.*

## Solid and Safe

**GacoPedestrianDeck** systems are Class A Fire Rated and adhere completely to concrete, plywood\* or metal. The added GacoShell granules embed themselves permanently into the coating – even under high-traffic conditions – creating solid, slip-resistant deck coverage which meets recommended standards of the Americans with Disabilities Act (ADA).

*\*A17 GacoCrete coating must be applied to plywood for class A fire rating.*

## Easy to Maintain

**GacoPedestrianDeck** systems are fade-resistant and weather strongly against the damaging factors of environmental exposure – this means a simple cleaning with soap and water restores your deck surface to its original beauty.

**GacoPedestrianDeck Systems –**  
Low-maintenance waterproofing to enhance & extend the life of your deck.

## Gaco Western

SINCE 1955

[gaco.com](http://gaco.com) | 800 331 0196

Gaco Western is a recognized leader in innovative silicone roofing systems, and offers best-of-class waterproofing and insulation solutions for a variety of commercial, industrial and residential applications. Founded in 1955, Gaco Western remains today a family-owned business with its roots in technology and product innovation.
